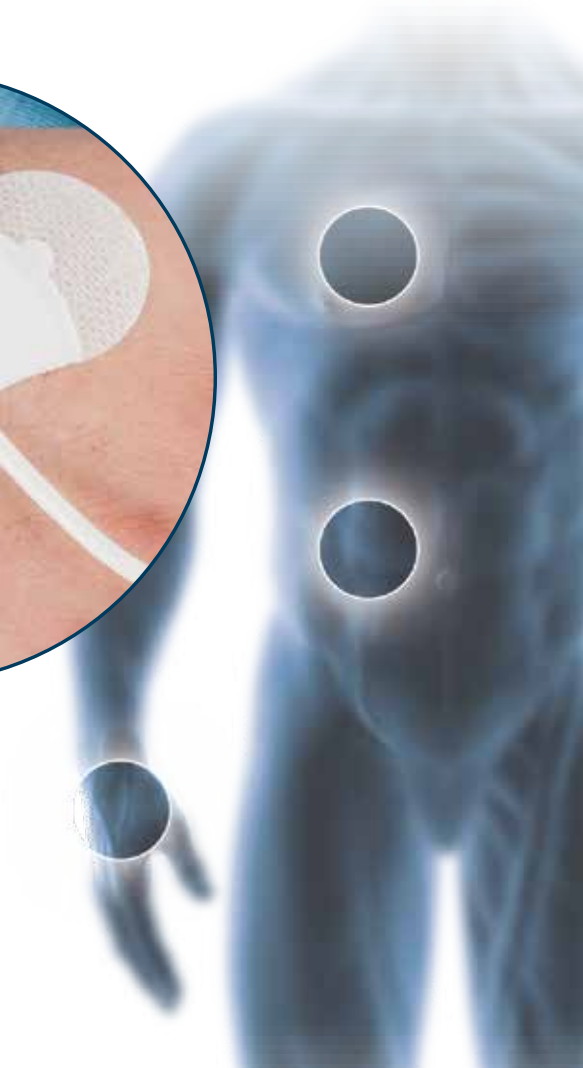
Grip-Lok®

Grip-Lok® is a portfolio of versatile adhesive-based devices that promotes patient comfort and secures a variety of tubes, lines, and catheters.



Product Details

- Secures a wide variety of tube sizes (see chart)
- Meets INS guidelines for engineered securement[1]
- Not made with natural rubber latex

SKU Number	Description	Quantity	Size Range	Catheter/Device Materials
3200S	Small Securement Device	100/Bx	4.5 – 13.5 FR	PVC, Polyethylene, Polyurethane
3300M	Medium Securement Device	100/Bx	9 – 24 FR	PVC, Polyethylene, Polyurethane
3400L	Large Securement Device	100/Bx	16 – 40 FR	PVC, Polyethylene, Polyurethane
3300MWA	Medium Wide Securement Device	100/Bx	16 – 40 FR	Silicone, PVC, Polyethylene, Polyurethane

Performance

SKU Number	Average Minimum Dislodgement Force[2]	Average Minimum Resistance to Peel[3]
3200S	2.5lbf /11.2 N	2.3lbf / 10.2 N
3300M	6.2lbf / 27.6 N	3.0lbf / 13.3 N
3400L	9.5lbf / 42.3 N	3.9lbf / 17.3 N
3300MWA	11.2lbf[4] / 49.8 N	4.2lbf[5] / 18.7 N

Patient Comfort

- Developed with medical grade, hypoallergenic adhesive
- Flexible materials and a low profile

Ease-of-Use

- Similar application methods used throughout portfolio
- Hook-and-loop tab allows access to the catheter, line, or tube
- Large and glove-friendly peel-away liners

Grip-Lok General Securement can be used with the following devices[6]:
