Quick-Core®

Soft Tissue Biopsy

Quick-Core[®] Biopsy Needle and Needle Set

Minimally Invasive Soft Tissue Biopsy

What is Quick-Core[®] Biopsy Needle?

The Quick-Core[®] Biopsy Needle is a device used in minimally invasive soft-tissue biopsy procedures that can be performed in a specialists office or in a hospital setting.

The Quick-Core[®] Biopsy Needle is indicated for soft-tissue biopsy.

How Quick-Core[®] Biopsy Needle and Needle Set Works

The soft tissue biopsy procedure can be done under local anesthetic. The procedure usually takes less than an hour to complete.

The Quick-Core[®] set includes a stainless steel trocar.

Why use Quick-Core[®] Biopsy Needle versus Competitors?

- Smart design reduces moving components allowing multiple uses without breakage
- Sharp bevel tip with two additional facets facilitates easy placement into tissue
- Rigid spring reduces vibration which allows better cutting of specimen preserving tissue architecture
- Small, ergonomic and lightweight handle limits needle movement
- No device recalls and a legacy of quality

Quick-Core® / Needle

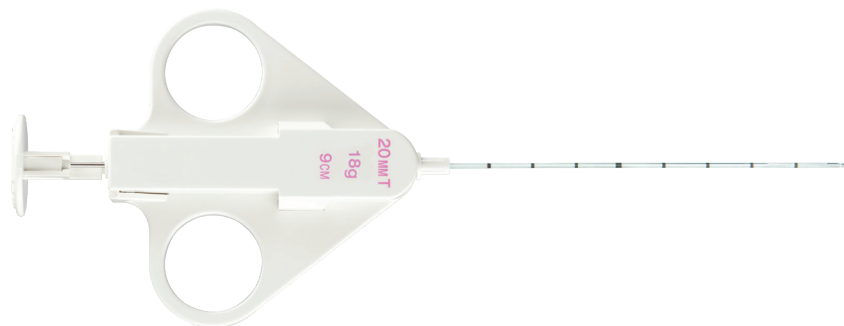

Quick-Core® Biopsy Needle

Soft-tissue Biopsy Needle

Used for soft-tissue biopsy

- The lightweight and compact Quick-Core® Biopsy Needle **facilitates one-handed operation** during procedures
- The **precise, rapid-firing mechanism** provides an intact core tissue sample
- The beveled stylet **permits easy penetration** into the lesion with less trauma to surrounding tissues and organs
- The etched tip **enhances visualization** under ultrasound

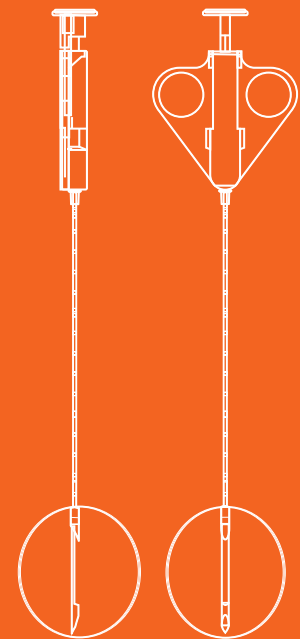

Supplied sterile in peel-open packages. Intended for one-time use only.

Quality Care is our Primary Concern

IZI Medical Products is constantly striving for innovation by continually focusing on developing better products for you, and in the end for the benefit of your patients.

We understand the complex business of healthcare, and we know how important it is to balance quality, with efficiency and affordability.

As a leading innovator, manufacturer, and distributor of quality medical devices, we ensure that all of our products meet or exceed U.S. and international regulatory and quality standards. The result of which, is a better overall experience for you, your team and, most importantly, your patients. We take pride in watching our concepts take shape, transforming and enhancing the way clinical procedures are done. Our innovation and dedication to accuracy is why so many healthcare professionals order our products by name.

We look forward to working together to improve patient care.

IZI Medical

About IZI Medical Products

Based in Owings Mills, Maryland, just outside Baltimore, IZI is a leading innovator, manufacturer, and distributor of quality medical devices that provides the continuity our healthcare partners need to succeed. Over the last three decades, IZI has built a diverse portfolio of products backed by strong intellectual property and currently sells to more than 1,000 domestic customers as well as internationally across 25 countries. IZI's portfolio of high-quality medical consumable devices are used in interventional radiology and oncology, radiation therapy, neuro-spine, and image guided surgery procedures

Our mission is to improve each patient's quality of life by providing our healthcare professional partners a complete portfolio of clinically proven, high value, and innovative medical device solutions inspired by physicians, for physicians. With this mission in mind, our vision is to become a leader in diagnostic and therapeutic minimally invasive solutions to advance healthcare and improve patients' lives.

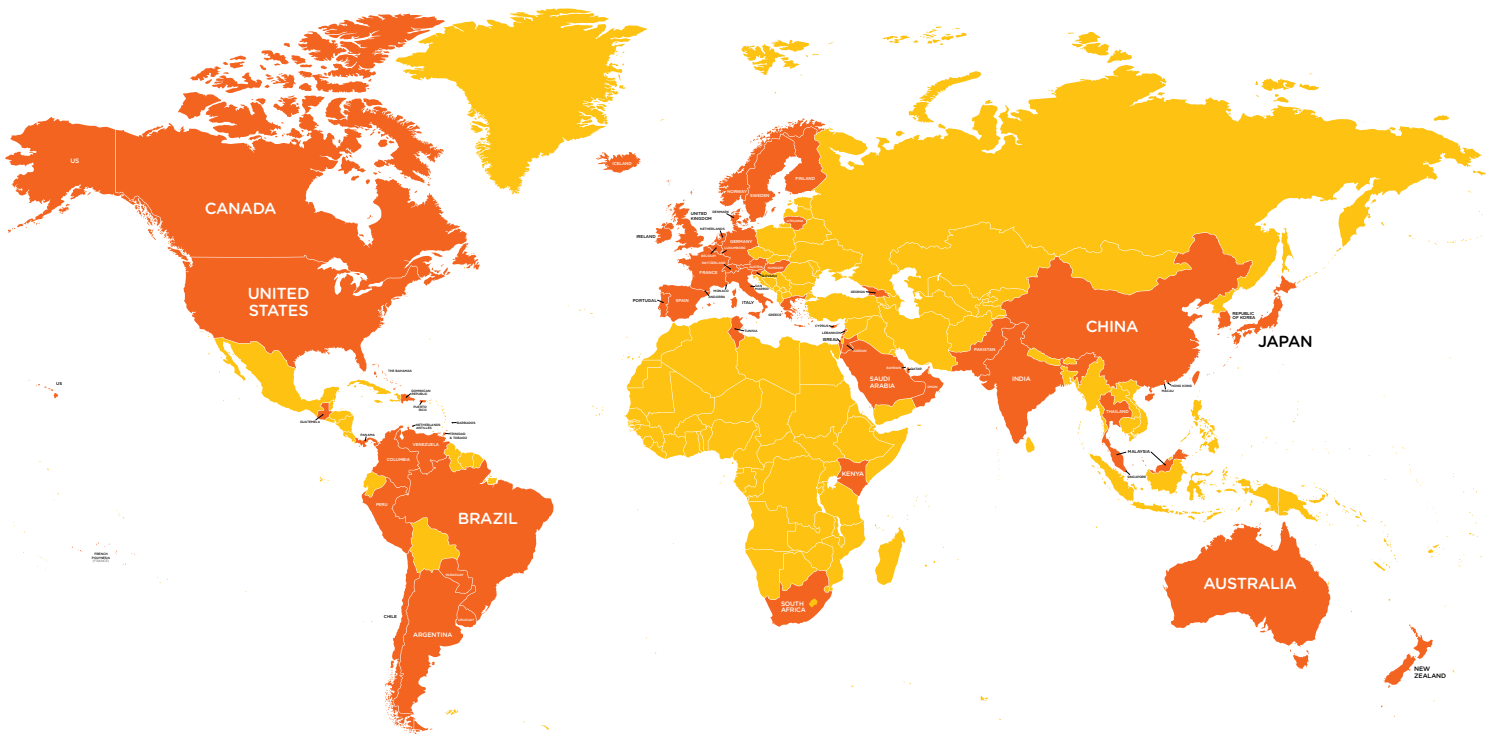

Contact Us:

Please call 800.231.1499 or +1.410.594.9403 for product samples, or visit IZIMed.com for more information.

We pride ourselves on our responsive service and prompt delivery. When ordered by 4pm Eastern Standard Time (EST), products are shipped same day.

IZI Medical Portfolio also includes products for:

- Biopsy
- Diagnostic Radiology
- Image Guided Surgery
- Radiation Therapy
- Spine Solutions
- Breast Lesion Localization
